

3D Wonder Cola

3dwonderstuff.com

Instructions

Cut out the image

Wrap around a 12 ounce soft drink can

Hold the can horizontally

Cross your eyes or

Relax your eyes

in order to overlap adjacent symbols.

The symbols should appear as if they are at different depths. They will alternate up and down.

After you see 3D, roll the can towards you. The symbols will seem to move relative to each other.

Enjoy, and show your friends.

Many people are able to see the effect immediately. Others take longer, some even a few minutes. Only about 5% cannot see it, so don't give up.
